**Our Mission:** Helping you keep your smile for a lifetime.

## *Modern Dentistry for Modern Lifestyles.*

Family SmileCare Center is pleased to offer same day crowns, fillings, and veneers to qualifying patients. At the forefront of dental technology, Family SmileCare Center recently incorporated the E4D Dentist system into the treatment options available to patients. As a result, Dr. Maikon and Dr. Stodola can take a digital scan of the patient's tooth and design and create a custom, permanent restoration in the dental office, all in a single appointment.

*Intra-oral Digital Camera*

*Design Center*

"We are so excited to bring this technology to our patients, the range of benefits we can now offer is more comprehensive and convenient", says Dr. Maikon. The E4D system replaces conventional impression methods that include an unpleasant material and the uncomfortable waiting associated with it. The clean, fast, digital scan is obtained in a few minutes through a series of photographic images taken in the mouth.

The scanned information is then transferred to the design center where a 3D model of the tooth is created chairside using the system's state-of-the-art DentalLogic software. The restoration is customized to fit the patient's unique characteristics, after which it is created in a milling unit right in office.

The final result is natural-looking restoration that beautifully fits the surrounding teeth, making the crown, veneer, or filling virtually undetectable. "The elimination of impressions, temporaries, second appointments, and waiting for the permanent restoration elevates the entire dental experience for both the dentist and the patient. Patients will love watching their new tooth come to life, as well as the convenience of same day dentistry," says Dr. Maikon. The E4D Dentist system empowers dentists to treat their patients with dentistry that truly fits their lifestyles. Call today to see if an E4D restoration is right for you.

## Same Day Smile

We are pleased to offer same day crowns, veneers and fillings. Using E4D™ technology, we take fast, clean digital scans, so we can design and create your restoration while you're in the office. No more uncomfortable temporaries or return visits. Your entire treatment from start to finish can be completed in a single appointment. With E4D, we can offer you modern dentistry that fits your modern lifestyle. Call today to see if an E4D restoration is right for you.
